

HASSANAIN ABBAS

E-mail: abbashassanain3@gmail.com

Cell: +92-3219824688

Address: Transformer Chowk, Kuri Road, Rawalpindi, Pakistan

OBJECTIVE

Motivated Computer Science graduate seeking admission to the Master's program in Cyber Security to develop advanced expertise in secure systems, network defense, digital forensics, and cyber threat analysis. Interested in contributing to research in cybersecurity solutions that protect digital infrastructures.

EDUCATION

Bachelor of Science in Computer Science (January 2021 ~ July 2025)

SZABIST University, Islamabad Campus, Pakistan(<https://szabist-isb.edu.pk/>)

CGPA: (3.26/4)

Fsc Pre-Engineering (September 2018 ~ July 2020)

University College For Boys University of Peshawar, Pakistan

Marks: (885/1100)

Major courses:

Information Security, Computer Networks, Data Structures & Algorithms, Database Systems, Artificial Intelligence, Data Mining, Web Technologies, Programming, Digital Image Processing, Introduction to Computer Science, Linear Algebra, Discrete Mathematics, Statistics.

Final Year Project(FYP):

ReviveMarket(Online second-hand store)

- Developed MERN-based online marketplace platform.
- Implemented secure authentication and payment integration.
- Designed real-time communication and product filtering modules.
- Created analytics dashboard and inventory tracking system.

RESEARCH INTEREST

- Cyber Security and Information Assurance
- Network Security
- Ethical Hacking and Penetration Testing
- Digital Forensics
- Secure Software Systems

PROJECTS

Student Record Manager

Developed a console-based application in C++ to manage student records, including adding, updating, and deleting data.

Library Management System

- Created an object-oriented C++ program to manage library operations such as book issuance, returns, and member registration. Applied key OOP concepts like classes, inheritance, and encapsulation.

Mini Search Engine

- Built a keyword search tool using C++ data structures such as linked lists, trees, and hash tables. Designed to help users search and retrieve relevant results from a small dataset efficiently.

Inventory Management System

- Designed a relational database system using MySQL to manage stock details, purchase history, and product categories. Wrote SQL queries to handle CRUD operations and relational integrity between tables.

E-Commerce Website

- Built a fully functional e-commerce site using HTML, CSS, JavaScript, and PHP. Enabled users to browse products, manage carts, register accounts, and place orders with basic front-end and back-end integration.

ONLINE COURSES

- IBM – Introduction to Data Analytics (Coursera)**
- Meta – Introduction to Front-End Development (Coursera)**
- Meta – Programming with JavaScript (Coursera)**

PROFESSIONAL EXPERIENCE

Front-end Developer Intern (Sep 2024 – Nov 2024)

Digital Empowerment Network

I completed a remote front-end development internship at **Digital Empowerment Network**, where I contributed to the design and development of user-friendly web interfaces using HTML, CSS, JavaScript, and React.js. I collaborated with senior developers to translate UI/UX designs into responsive and accessible components. My role involved optimizing front-end performance, resolving layout issues, and ensuring cross-browser compatibility.

VOLUNTEER WORK

- Guided students from underdeveloped areas with career counseling and university admissions across Pakistan (2021–Present)
- Volunteered in a blood donation group to arrange urgent donations for patients in hospitals across various cities (2022–Present)
- Organized financial support for poor students to help them continue their education (2020–Present).
- Co-founded Haidery Student Foundation to support underprivileged students with academic needs (2024–Present).

Language skills

- English: Fluent 
- Urdu: Native 
- Pashto: Native 

TECHNICAL SKILLS

- Programming: C++, Python, JavaScript
- Web Technologies: HTML, CSS, React.js, PHP
- Database: MySQL, MongoDB
- Security Related: Information Security Fundamentals, Secure Authentication Concepts
- Tools: VS Code, MS Office
